#### **TDY Award**

#### **TDY Assignee**

If you are an assigned TDY pilot, contact Pilot Crew Scheduling prior to the TDY month to arrange a positioning TDY deadhead. You are entitled to a positioning deadhead (A1D) at the beginning and end of the TDY month.

- This deadhead can be in conjunction with a legal sequence or a deadhead only sequence. If you are given a deadhead only sequence, once it's placed in your line, you are not permitted to trade or drop this sequence.
- If you suspect that your schedule does not provide sufficient time to transfer and to receive legal rest either positioning into or de-positioning from TDY base, please contact Crew Scheduling to resolve the conflict. Crew Scheduling will evaluate and review available options.

#### **TDY Proffer**

If you are a proffered TDY pilot, you are responsible to schedule your own deadhead prior to your TDY month.

## **PBS**

# **COVID Vaccine Required Pairings**

The list of pairings and stations that require the COVID Vaccine (list is available when PBS opens): AAPilots>AA Scheduling>PBS>COVID Vaccine Required Pairings

# **Blocked IOE Pairings**

The list of pairings selected for training and are not available for PBS bidding (list is available when PBS opens): AAPilots>AA Scheduling>PBS>IOE Pairings

# **Prior Month Removal (Changeover) Pairings**

Prior Removal Pairings are pairings that originate in the current month (they were included in bidding last month), fly through into next month, and were modified as a result of a schedule modification or other disruption. As a result, if you have one of these affected pairings on your current schedule, your calendar in PBS will not initially display correctly, including an incorrect carry-in credit, which may affect your bid. Once FOS is updated, the old pairing (PREV) will be replaced with the new pairings (CHGOVR) and PBS will be updated as well so that the calendar and award in PBS will be correct.

The table below is a list of Prior Removal Pairings that affect the coming month in your bid status. Please check your current schedule to see if you have one of these pairings at the end of the current month. If you do, look up the new pairings in the bid package (CHGOVR) and bid considering that it will replace the old pairing prior to the PBS award. You may log back into PBS after about 1000 on the 12th to view an updated calendar with the new pairing displayed.

#### **POST PBS**

#### **Reserve Modification**

There are instances where the PBS software is unable to make a JCBA-compliant reserve award. In these instances, PBS will leave the award blank. The PBS administrators will contact pilots that fall into this situation shortly after bids are published to inform them about the blank award, which will be rectified through a manual process. The pilots will be asked to contact their Base Planner beginning on the 18th after schedules are loaded into FOS and will jointly resolve the award.

# **Hybrid Awards**

Please direct Hybrid communication to Pilot.Hybrid@aa.com
AAPilots>AA Scheduling>Bidding Information> Hybrid Request Form

As a part of the PBS process, you may receive a Hybrid line award, which consists of a combination of pairings and available "Hybrid Days". Initially, a Hybrid award will be identified simply as being a low line – the value will be below the bottom of the Line Construction Window.

As a reminder – you cannot bid for a Hybrid line. They are awarded when the PBS software cannot complete a line of flying within the line construction window without violating the seniority of a more senior pilot. In this case, if the CREDIT is at least 50% of the bottom of the LCW, a Hybrid is awarded in lieu of reserve, provided a pilot has bid appropriately. The number of days is determined by dividing the difference in your line value and the bottom of the LCW by the Daily Average Credit Value (DACV) for your bid status. Round up to the next whole number to determine the days of obligation. You are also pay protected to the DACV for those Hybrid Days. Refer to the DACV table for the value for your bid status.

Refer to the Hybrid Line Award Procedures document on the AAPilots PBS page for more detailed information.

# RESERVE PRIMARY BIDDING PROCESS MAY 2022

# **Reserve Classification**

# Long Call Reserve (LC RSV) pilot

The LC RSV line is awarded in PBS. LC RSV pilots can only be assigned sequences or RAPs with a minimum of twelve (12) hours between assignment and sequence sign-in or RAP start time.

Long Call Reserve (LC RSV) pilots will not be awarded monthly post-DFP/planned absence RAPs and therefore do not participate in the Secondary Bidding Process.

# **Short Call Reserve (SC RSV) pilot**

The SC RSV line is awarded in PBS. SC RSV pilots are normally assigned sequences within a RAP with less than twelve (12) hours between sequence assignment and sequence sign-in.

Short Call Reserve (SC RSV) pilots will be awarded/assigned a RAP on Reserve Available days that follow a Duty Free Period (DFP) or the closed (end) of a planned absence.

The Monthly Bid RAP table will be available to view on AAPilots no later than 20APR22

AAPilots>AA Scheduling>Bidding Information>Pilots Awarded Short Call Reserve for May 2022
